The Bruges Triennial brings contemporary art and architecture to Bruges. For its third edition, Triennial Bruges 2021: Trauma delves beneath the surface, in search of the hidden dimensions of the city. For many, Bruges is a dream destination, seemingly picture perfect, but is it? Does the fabulous city that is Bruges also have a downside? And if so, dare we show it? Thirteen national and international artists and architects pondered this very question. They went in search of life behind the stately facades, how Bruges is experienced and lived. Their artistic interventions form a trail of imagination and wonder. They take you to places that oscillate between dream and reality, between what is real and what is delusional.

**EVENTS**

Experience the Bruges Triennial 2021 with friends, family or colleagues and book a guided tour as a group or join one of the weekly walking tours on an individual basis. A Triennial Bruges guide takes you through the medieval city and immerses you in the tale behind Trauma and the artistic installations on route. You can choose between different options, on foot or by bike.
